SUMMARY

Vocational high school student majoring in Software Development with hands-on experience building web applications using Laravel, Tailwind CSS, and MySQL. Developed CRUD-based systems and UI-focused projects, with a strong interest in UI/UX and performance optimization. Currently seeking internship opportunities in software engineering.

EDUCATION

Junior High School
SMPN 1 PANDAAN

- Leader of Kreator Spanda (School Media).
- Assisted documentation, Videography & Photography.

Vocational High School
SMK IDN Boading School

- Focus : Software Development
- Built web applications using Laravel & Tailwind CSS
- Experience in CRUD systems, authentication, and UI implementation

SKILLS

Technical Skilss:
HTML, CSS, JavaScript, PHP, Dart, Python, Bootstrap, Tailwind, Laravel, Flutter, Git&Github, SQL, Figma, Canva, Scratch, CapCut

Soft Skills :
Public Speaking, Leadership, Communication, Problem Solving, Discipline, Growth Mindset, Patience, Presentation

EXPERIENCE

App Developer - (QR Scanner App) **Jan 2026**

- Made a QR Scanner App, using Flutter, Dart, and some IOS and Android requirements for scanner, I made simple and comfortable UI/UX, that users can use it with simple step.

Leader Of Flutter Project **Nov 2025 - Dec 2025**

- Led the development of the user interface (UI) for a hotel reservation application using Flutter as part of the school's Final Project. Designed reusable UI components and layout structures that simplified team collaboration and reduced UI development time by approximately 30%.

App Developer **Jul 2025**

- Passionate application developer specializing in building modern, high-performance applications with strong attention to scalability, security, and user experience.

Frontend Developer - (Landing Page Website) **Jan 2025**

- Frontend Developer responsible for building responsive and high-performance company profile websites using modern web technologies and frameworks, with strong attention to UI/UX, accessibility, and cross-browser compatibility.

Backend Developer - (Stock Manager Website) **Dec 2024**

- Built a stock management system with Laravel and Bootstrap featuring CRUD products, stock tracking, authentication, and secure data handling.

Backend Developer - (Al-Qur'an API Website) **Nov 2024**

- Built a RESTful API using Laravel to serve Al-Qur'an data (Surah, Ayah, translation, tafsir) with optimized queries, validation, and secure authentication.

Frontend Developer - (Company Profile Website) **Aug 2024**

- Frontend Developer responsible for building responsive and high-performance company profile websites using modern web technologies and frameworks, with strong attention to UI/UX, accessibility, and cross-browser compatibility.

IT Teacher **Sep 2024 - Nov 2025**

- Served as an informatics teacher for students at SDN Ngadas, SDN Sukolilo, and SMK NH Multimedia as part of a Community Service program. Taught basic digital tools including Scratch, Canva, and Figma, successfully guiding students to understand core concepts and complete their main project deliverables.

Web Developer **Jul 2024**

- Experienced in web development with strong skills in multiple programming languages, a strong understanding of programming logic, modern frameworks, web security best practices, scalable system design, and clean code principles.

CERTIFICATES

- Amazon web Services - (Serverless Mindset)
- FreeCodeCamp - (Responsive Web Design)
- Rakamin - (Website Development)
- HP LIFE | HP Foundation - (Artificial Intelligence)
- dicoding - (JavaScript)
- dicoding - (Artificial Intelligence)
- UniAthena - (Python)
- DqLab - (SQL)

LANGUAGE

English - Fluent Indonesia - Native

ACHIEVEMENTS

- Medali Emas | OSKANTARA 2025 (Olimpiade Bahasa Inggris)
- Medali Perak | OPN 2024 (Olimpiade Bahasa Inggris)
- Juara 1 | Lomba Fotografi Se-Kabupaten Pasuruan, SMKN 1 Sukorejo
